

SAMPLE BOARDS

We offer custom or stock dealer display boards that will draw attention to and sell your products!

Close-up image of the rounded corner of a white MDF sample board. This is our standard edge. You can also order them with square corners. We can also paint the edge for a small upcharge.

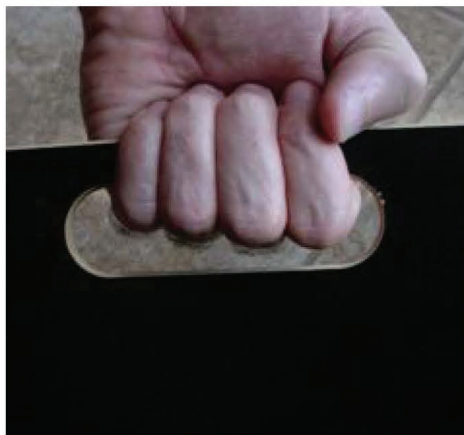

Close up image showing the rounded corner of a black mdf sample board. This board has also been "bullnosed" which is an extra process that chamfers the front and back edge of the board.

On our "1 sided" boards (color on one side only) the back of the board will look like this. Again, this close-up also shows that this board has been "bullnosed" which is an extra feature we can add to your boards.

Our standard hand slot is 1" tall, 4" wide and 1" from the edge. You can order your boards with or without the handslot and you can change the size of the hand slot.

Any shape. Using our computer programmed CNC routers we can make any shape. We first provide you with an approval drawing so you can make sure it's exactly what you want.

We can also screen-print your boards with a single color image. Send us your image and we can let you know if it fits our capabilities.

WE CAN MAKE THIS DISPLAY IN MANY DIFFERENT SIZES, CONTACT US TO SEE HOW!
